

OUTDOOR KITCHENS

STAINLESS STEEL · MMXXVI

SMART PODS · MODULAR OUTDOOR KITCHENS ·
PROJECT CONFIGURATION

zoviahome.com

BUILT FOR THE OPEN AIR

Outdoor kitchen systems in 304 stainless steel, presented as mobile Smart Pods or modular cabinetry.

MATERIAL

304 stainless steel

FORMATS

Smart Pod / modular kitchen

CONFIGURATION

Project-specific appliances

01 **SMART POD**

02 **MODULAR KITCHEN**

ONE COLLECTION, TWO ARCHITECTURES

One enclosed, mobile format. One open, modular format. Both organise cooking, preparation, washing and cold storage outdoors.

SMART POD

MOBILE FOLDING KITCHEN

A sheltered cooking station that opens into an outdoor workspace.

NIGHT

DAY

**OPEN BY DAY.
PRESENT AFTER DARK.**

The lifting roof creates shade and shelter. Integrated LED lighting keeps the cooking zone clear after sunset.

THE COOKING CORE, COMPACTED.

Configure the pod around grill, hood, sink, refrigeration and display. Appliance selection remains project-specific.

COOKING

Gas grill / cooktop

PREPARATION

Worktop + sink

STORAGE

Drawers + refrigeration

MEDIA

Display + USB outlets

VILLA TERRACE
COURTYARD GARDEN
OUTDOOR DINING

**DESIGNED TO SETTLE
INTO THE SITE.**

The compact architectural form works beside villas, on terraces and within courtyard gardens without losing the identity of the outdoor space.

CONTROL, LIGHT AND APPLIANCES IN ONE POD.

The Smart Pod combines the moving roof, lighting and selected cooking equipment in one coordinated enclosure.

ROOF

Electric lifting

LIGHTING

Integrated LED

CONTROL

Voice + mobile app

OPTIONS

Kamado + pizza oven

MODULAR OUTDOOR KITCHEN

A linear system for islands, walls and L-shaped layouts.

304 STAINLESS STEEL · PROJECT CONFIGURATION

L-SHAPE

LINEAR

**BUILT TO TURN
THE CORNER.**

L-shaped layouts combine cooking, preparation, sink and cold storage. Linear runs keep the same functions along one architectural edge.

COLOUR CHANGES THE TEMPERATURE, NOT THE SYSTEM.

Charcoal, beige, mint and light-grey finishes extend one stainless-steel platform across different outdoor settings.

TERRACE

A LIGHTER PALETTE FOR OPEN TERRACES.

Light-grey runs reduce visual weight while retaining the stainless-steel worktop, grill, sink and under-counter storage.

MATERIALS THAT WORK AS ONE SYSTEM.

Stainless-steel cabinetry, integrated sinks and a choice of worktop surfaces are coordinated within one outdoor-kitchen composition.

CABINETS

304 stainless steel

STEEL WORKTOP

Tree Bark / Rhino Skin

SINTERED STONE

7 colour options

SINK

Integrated 304 steel

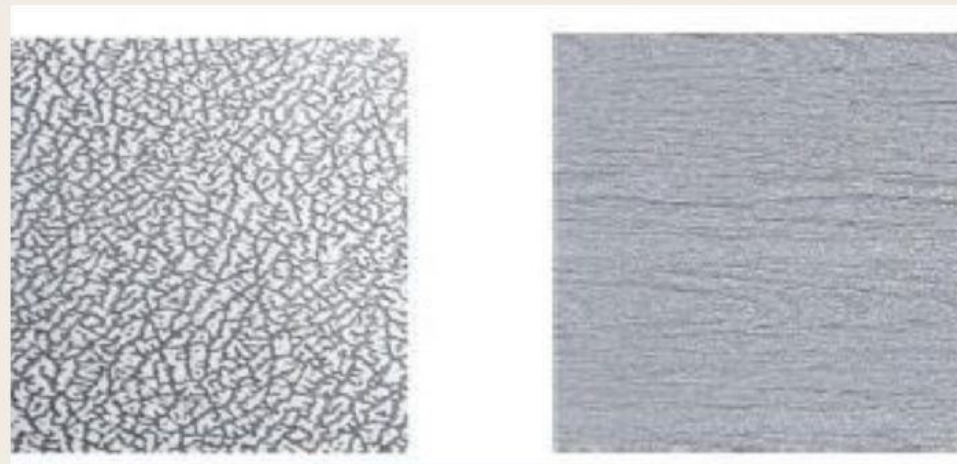

FINISHES & SURFACES

SINTERED STONE

7 COLOUR OPTIONS

Seven sintered-stone options and two stainless-steel worktop textures.

STAINLESS-STEEL WORKTOP

TREE BARK / RHINO SKIN

FROM PROJECT BRIEF TO OUTDOOR KITCHEN.

Zovia supports overseas B2B projects with layout coordination, appliance planning and project-specific configuration.

ORIGIN

Factory-direct from Foshan, China
